JUNGLE TREKKING

Uncover a fascinating insight into the spectacular virgin rainforest that is estimated to be over 2 million years old. Our resident naturalist conducts daily walks while imparting guests with informative knowledge on the rich plant and animal life that thrives within it. The jungle trek offer two levels of difficulties and distance that will be selected based on the group's fitness level and the daily condition of the trail. The short trek is approximately 500-metres through the northern perimeter of the lush rainforest, while the invigorating long trek of approximately 2,400-metres offers stunning views of the sea from the top of the southern perimeter. Both treks end at Emerald Bay, where you will be greeted by the azure waters of the sea and the sound of its gentle rolling waves. Inclusions: A full safety briefing and mineral water. Travel tip: Long trousers, long/short sleeved top, sun hat, comfortable covered walking shoes and mosquito repellent recommended.
